CMS.100: Syllabus Quiz

Circle the best answer. This is worth 1 point for completing it. It is here to make sure we are on the same page about how this class runs, not to catch you out, and we will go over the answers together.

Part 1. What would you do? Circle all that are true.

1. You wake up on a class day with a fever. What does the syllabus ask you to do?
 - a. Come anyway but wear a mask; attendance is required.
 - b. Send a doctor's note so the absence is excused.
 - c. Stay home.
 - d. Email to request a make-up reading response.
2. You missed that one class. What happens to your grade?
 - a. Very little; I can supplement the points through ✓+ on reading responses.
 - b. Nothing.
 - c. You can make it up by writing an extra reading response at home.
 - d. You need to file an excused-absence form.
3. Which of these is true of reading check-ins?
 - a. They are graded on whether you got the right answer.
 - b. They are always open-book, so you can leave the readings at home.
 - c. They are graded for completion, clarity, and effort.
 - d. They are always closed-book, hand-written quizzes.
4. You have just finished a reading response in your carbonless notebook. What happens to the two copies?
 - a. Turn in both.
 - b. Turn in the copy; keep the original.
 - c. Keep one and upload a scan to Canvas.
5. Assignment 1 is due at 9 am and you are not finished. You turn it in two days late. What happens?
 - a. You lose 5% per day.
 - b. It will not be accepted.
 - c. No grade penalty but no written comments.
 - d. Nothing, as long as you emailed for an extension beforehand.
6. That same flexibility does not apply cleanly to the final project. Why?
 - a. It is worth more points.
 - b. Its milestones build on each other.
 - c. It does apply; every part of the final project can be moved by email.
7. Which of these describes the generative AI setup for this class?
 - a. Everyone must use AI for at least one assignment.
 - b. You pick one of two tracks on your AI declaration: limited use, or conscientious objector. You can switch later by sending a short memo, and the class is fully doable without AI.
 - c. Choosing the no-AI track means extra work.
 - d. How well you use AI is part of your grade.

(turn over page)

8. You have been assigned two classmates' first drafts to review. Can you paste their drafts into an AI tool to help write your memo?
- Yes, if you cite it.
 - Yes, if they chose the AI track.
 - Only for grammar.
 - No. Never upload a colleague's work to any AI model, for any reason.
9. A classmate says something brilliant in discussion and you would love to post it. What does the Chatham House Rule we use expect?
- Go ahead; class discussion is public.
 - Share the idea if you like, but do not attribute it or tag them without their explicit, enthusiastic consent.
 - Post it only after the semester ends.
 - Quote only the instructor.
12. You would like an accommodation (e.g., auditory rather than visual materials). What do you need?
- Documentation from Disability and Access Services first.
 - A doctor's note.
 - Nothing: just talk to the instructor.
 - Approval from your advisor.

Part 2. True or false? Circle one.

- T F 1. To earn the attendance and participation point for a session, you need to speak at least once in class.
- T F 2. Unless an activity calls for it, class runs without laptops or phones.
- T F 3. In-class writing is graded on how polished it is.
- T F 4. You must complete every assignment in order to pass the class.
- T F 5. The instructor will run your writing through AI-detection software or otherwise use AI for grading.
- T F 6. Office hours are drop-in at a fixed weekly time.
- T F 7. You can earn up to 3 bonus points by meeting with the Writing and Communication Center or coming to office hours.
- T F 8. Because there is no late penalty, you can turn in the final paper whenever you like.

Part 3. One thing about how this class works that you are still unsure about:

AI Declaration: This quiz was generated with Claude's assistance. I wrote out some salient points I wanted on the test, asked Claude to generate a similar list with the syllabus, and then I picked the most important components. Then, I asked Claude to generate questions based on the list and I edited those questions and answers for clarity, necessity, and accuracy.
